PRESENTED BY THE PENNSYLVANIA LAND TRUST ASSOCIATION  
Pennsylvania's annual training, networking, and inspirational event for  
those involved in public and private land conservation.

## Networking Breakfast -- 8:00 am - 9:00 am

Join fellow EAC members and municipal officials for this full breakfast: discuss issues impacting local municipalities, share ideas and meet new contacts.

## Morning Program -- 9:00 am - 11:30 am

9:00 am **Welcome & Introductions**

9:15 am **Return on the Environment: Understanding the True Value of Our Natural Resources**

**Speaker:** *John Rogers, Keystone Conservation Trust*

Nature's value is real, significant and impacts a wide range of stakeholders. A Return on Environment study can help municipalities level the playing field and change the rules of the game in conservation and economic development. A number of municipalities and counties have completed this detailed evaluation of the economic value and payback of the ecological services and other public benefits provided by the natural resources in their region. In other words, how much money are we saving municipalities and residents by preserving the resources that support our communities? And what economic benefits come to our area because of the valuable resources we have? Learn more about these studies as well as how EACs and municipalities can help residents be better stewards of their land.

10:00 am **EAC Sharing Forum**

**Moderator:** *Jeanne Ortiz, Audubon Pennsylvania*

Representatives from various EACs will share innovative programs and success stories.

## Lunch -- 11:30 am - 1:00 pm

Lunch is included with your registration. In addition to networking time, lunch features the presentation of the Local Government Conservation Leadership Award.

## Afternoon Workshops -- 1:00 pm - 3:00 pm

Please **choose one** of the following workshops to attend on Saturday afternoon (descriptions available at [ConserveLand.org/2017-conference](http://ConserveLand.org/2017-conference)):

- A. Conservation in a Changing Climate: The Role of Public and Private Lands
